manufacturer of the finest custom-made aircraft covers

Tech Sheet: Airbus Helicopter EC-135

(airbus-helicopter-AH135.pdf)

E135

Section 1: Cockpit/Bubble Covers

The **Airbus Helicopter EC-135 Bubble Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

The **Bubble Cover** encloses the entire canopy including the windshield, skylights, and chin bubble Attachment buckles are made of nonmetal *Delrin*, designed for rugged outdoor use. Both the top and bottom hems of the cover have a special rope-hem feature with which they can be tightened to help prevent abrasive chafing of the windshield. Pockets are sewn into the cover for the temperature probe and pitot tubes. The bubble cover is reinforced with patches at hinge points, door handles, and for the windshield wipers. For ease of installation, the bubble cover is color-coded (red=left, green=right) with color swatches sewn into the corners.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.

The **Airbus Helicopter EC-135 Windshield/Nose Cover** is designed to cover the windshield and side windows of the cockpit, and extends forward to cover the nose.

EC-135 Windshield/Skylights Cover, pinches in door jambs

Description	Part Number	Price
BUBBLE COVER	**AH135-000**	**$1300.00**
BUBBLE COVER (with Wire Strike)	**AH135-001**	**$1300.00**
BUBBLE COVER (with nose mount radome)	**AH135-002**	**$1535.00**
BUBBLE COVER (with nose mount radome & wire strike)	**AH135-003**	**$1535.00**
WINDSHIELD/SKYLIGHT COVER, pinches in door jambs	**AH135-010**	**$880.00**
WINDSHIELD/SKYLIGHT COVER (with Wire Strike), pinches in door jambs	**AH135-015**	**$880.00**
WINDSHIELD/SKYLIGHT COVER (with nose mount radome), pinches in door jambs	**AH135-016**	**$1185.00**
WINDSHIELD/SKYLIGHT COVER (with nose mount radome & wire strike), pinches in door jambs	**AH135-017**	**$1175.00**
FUSELAGE COVER	**AH135-050**	**$17700.00**
FUSELAGE COVER, w/ nose mount radome & wire strike, 3 Overlapping Pieces	**AH135-055**	**$19515.00**

Section 2: Engine/Tail Rotor Covers

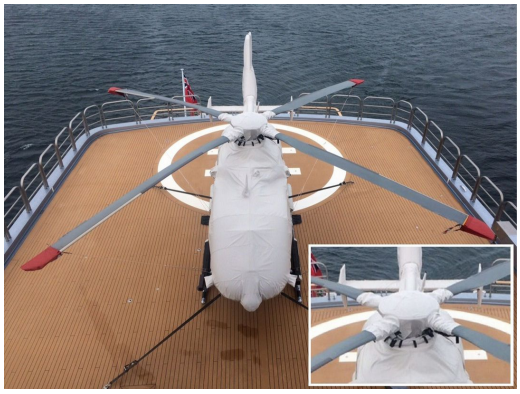
Blade Tie-Downs are "socks" which fit over the blade tip with or without Blade Covers installed. Front blade tie-downs have two lengths of rope or strap which attaches to the front cross tubes on either side of the cabin. The other tie-downs have generous lengths of rope or strap to tie the blades down at any convenient spot.

Engine Cover details vary by model, but generally these covers are designed to enclose and protect the swash plate, inlet, exhaust and engine access areas. They are designed to tighten up around the main rotor drive shaft and tailboom bottleneck areas, and attach securely with straps either under the belly or to the land gear cross tubes (or both). *Delrin* buckles are used to tighten the attachment straps. The engine cover is made of Solution-Dyed Polyester or acrylic *Sunbrella*, and is available in a variety of colors ([contact us for details](/contact). Specific information for each model is available on request.

Rotor Hub Covers overlaps with the Blade Covers to ensure complete protection for the entire main rotor system. Designed like a jacket with sleeves and no collar, the rotor hub cover fastens together below each blade with *Delrin* buckles. The Rotor Hub Cover is normally made from Solution-Dyed Polyester.

Bruce's **Airbus Helicopter EC-135 Blade Covers** are made of medium-weight Solution-Dyed Polyester and designed to avoid trim tabs or wicks. You can install Blade Covers from the ground with the aid of a lightweight rope attached to the open end. Covers are cinched tight at the blade root with straps and quick-release plastic buckles. The **Cold Weather Blade Covers** are fitted with full-length zippers and optional deice "boots" designed to accept a preheater hose; a small opening at the tip of the cover allows for some air circulation and drainage in freezing weather. Some part numbers have features for an extra charge.

The **Airbus Helicopter EC-135 Intake Cover.** Details vary by model, but generally helicopter intake covers are designed to enclose the intake are only. They are smaller than helicopter engine covers, and their attachment details can vary from straps, to snaps, or some combination of the two. Specific information for each model is available on request.



Airbus Helicopter AH135 Main Rotor Hub Cover

Airbus EC135T3 Blade Tie-Downs

Description	Part Number	Price
MAIN ROTOR HUB COVER	**AH135-100**	**$575.00**
ENGINE AREA COVER	**AH135-110**	**$1245.00**
INTAKE COVER FOR FDC AEROFILTER (IBF FILTER)	**AH135-111**	**$265.00**
INTAKE/EXHAUST AREA COVER	**AH135-112**	**$840.00**
BLADE COVERS (STANDARD DESIGN), specify model (set of 4)	**AH135-600**	**$1030.00**
BLADE COVERS, cold weather (specify model) (set of 4)	**AH135-610**	**$1670.00**
BLADE COVERS, cold weather, for fixed static wick (specify model) (set of 4)	**AH135-611**	**$1755.00**
BLADE TIE-DOWNS (fabric type) (set of 4)	**AH135-615**	**$415.00**
BLADE TIE-DOWNS w/Telescoping Attachment Handle (set of 5)	**AH135-620**	**$565.00**

Section 3: Plugs & Protection

Airbus Helicopter EC-135 Pitot Tube Covers, NOT HEAT RESISTANT TYPE, are made of Naugahyde vinyl, and are designed to cover the entire pitot assembly. Slipping over the tube, the cover tightens around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to this design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

The **Engine Exhaust Plugs** are custom fit for your Airbus Helicopter EC-135 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Exhaust plugs have 'Remove Before Flight' streamers sewn onto the face of the plugs. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Engine Inlet Plugs** are custom fit for your Airbus Helicopter EC-135 intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'Remove Before Flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Storage bag NOT included. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

Airbus Helicopter H145 Pitot Tube Cover

Airbus EC135T3 Blade Tie-Downs

Description	Part Number	Price
EXHAUST PLUGS, T series, Arrius Engine (set of 2)	**AH135-125**	**$375.00**

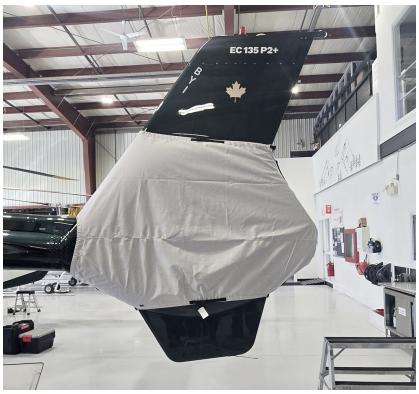
ENGINE INLET PLUGS, main inlet & NACA scoop inlets (set of 4)	**AH135-500**	**$420.00**
FRONT BELLY NACA scoop inlets (set of 2)	**AH135-505**	**$155.00**
FRESH AIR VENT PLUG	**AH135-506**	**$95.00**
PITOT COVERS (set of 2)	**AH135-720**	**$240.00**

Section 4: Tailboom Covers

The **Tailboom Cover** details vary by model, but generally the helicopter tail boom cover encloses the tail boom from the "bottleneck" to the aft end. They usually also cover the horizontal stabilizers, and are custom made to allow for antennae, lights, and other protrusions. They attach with straps underneath the tail boom. Covers for the vertical and horizontal stabilizers are also available separately. Specific information for each model is available on request.



Airbus Helicopter EC-135 Tailfan Housing Fenestron Cover

E135

Description	Part Number	Price
TAILFAN HOUSING FENESTRON COVER	**AH135-200**	**$545.00**

TAILBOOM/TAILFAN/STABILIZERS COVER	**AH135-250**	**$5680.00**

TAILBOOM/STABILIZERS COVER	**AH135-255**	**$4715.00**
HORIZONTAL STABILIZERS COVERS (set of 2)	**AH135-260**	**$340.00**
HORIZONTAL STABILIZERS COVERS (W/ WINGLETS) (set of 2)	**AH135-265**	**$400.00**

Section 5: HeatShields & Sun Reflectors

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. Darts and folds are incorporated into the material so that it conforms to the complex shape of the helicopter windows. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Heatshields are interior sunshades for an aircraft's windows or canopy glass. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand along the inside of the windshield using sun visors or window framing. It folds up flat and easily stores in the included storage sleeve. Some designs may require velcro and suction cups. A Heatshield is an excellent short-term remedy for cockpit overheating.

EC-145 Cabin Heatshield Set

Eurocopter EC-145 Cabin Heatshields

Description	Part Number	Price
INSTRUMENT PANEL HEAT SHIELD COVER	**AH135-400**	**$290.00**
COCKPIT HEATSHIELD SET (set of 6)	**AH135-900**	**$600.00**
HEATSHIELD SET (set of 12)	**AH135-905**	**$930.00**
SLIDING DOOR HEATSHIELDS (set of 2)	**AH135-910**	**$160.00**
AFT SIDE HEATSHIELDS (set of 2)	**AH135-911**	**$105.00**

Section 7: Light Weight Products: Travel Covers and FlyAway Covers

The **Airbus Helicopter EC-135 Lightweight Travel Bubble Cover** is the same design as our standard bubble cover, but the material used is very lightwieight and will fold up and store in a smaller space.

Travel Covers are made with Silver Solution-Dyed Polyester fabric and fully lined over the entire cover. The material is lightweight and more compact for easy stowage in the aircraft. The polyester material is water resistant, but only intended for occasional use outside. We also have an ultra lightweight material available for fitted hangar dust covers. For daily outdoor use, the non-travel Sunbrella Cover is the best choice.

The **Airbus Helicopter EC-135 Windshield/Nose Cover** is designed to cover the windshield and side windows of the cockpit, and

extends forward to cover the nose.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.
